How do you see Caltech growing as it relates to inclusion and diversity? Caltech is taking important steps to grow in regards to inclusion and diversity. With the hard work of the Caltech Center for Inclusion and Diversity, students, postdocs, faculty and staff, we will form a welcoming community that promotes the success of all of its members.

What does receiving this award mean to you? It is an honor to receive the COMPASS Outstanding Mentor Award. As a postdoc at Caltech, I have been involved in a number of outreach, teaching and mentoring activities. These opportunities allow me to connect with the Caltech community. Mentorship is an important part of my work as a scientist, and I hope to continue to share my knowledge and experiences to make a positive contribution to our community.
